Subject: Snug Harbor Resort

My name is Ken Christensen manager of Snug Harbor Resort.

I am writing today in respond to the letter (email) written and sent to me about the permit for the use of propane at the resort. On February 2 2018, Anthony Dorrough Of the Utilities and Transportation Commission came to the resort and did walk thru inspection with myself of the resort. After the inspection Anthony and myself sat down and when thru some of concerns that Anthony had spotted during are inspection of the resort. Anthony told me that he would send an email with things that we would need to address before we could apply for the permit for the resort.

April 10 2018. I received the email from Anthony with inspection notice letting me know that I had 30 day to reply to the email. I am currently writing to you today in responds to the email Anthony send to me. We are working on this as we speak.

We are working on the concern on the inspection #7488. We have hired Mike sims and Greg Casey to help with these Violations, so we can become currant with the laws Anthony has kindly addressed on this email. In short you should be receiving a letter From Mike Sims tomorrow stating that we are currently working on this violations outlined by Anthony Dorrough and will give up dated information to Anthony as we start and finish these violation for our permit for propane use at Snug Harbor Resort, 1997 mitchell bay Rd. 98250. Friday Harbor. San Juan Island wa.

Please feel free in contacting me at any point with question with information bellow.

Thank you and have a nice day!
